

Dieu-Donne Nazzah

Full-Stack Engineer Accra, Ghana

dieudonnenazzah@gmail.com | +233 (0) 201329311 | github.com/ddnazzah | linkedin.com/in/dieudonnenazzah

Professional Summary

CTO and full-stack engineer with 7+ years of experience designing, building, and scaling user-centered web and mobile applications. Combines deep technical expertise across React, TypeScript, Node.js, and cloud infrastructure with hands-on leadership of cross-functional development teams. Proven track record delivering 12+ client products, establishing DevOps pipelines, and maintaining secure, high-availability production systems.

Recent Experience

CTO **BenchFive**, Ghana (Remote) *June 2025 – Present*

Full-Stack Engineer. *June 2021 – June 2025*

- Leading a team of 8 developers across 12+ client projects spanning EdTech, real estate, logistics, and SaaS platforms, serving thousands of users.
- Architected and delivered full-stack web and mobile applications using React, Next.js, React Native, NestJS, Laravel, and PostgreSQL, contributing 2,200+ commits across 30+ repositories.
- Manage production VPS infrastructure, achieving 97%+ uptime through proactive monitoring, server hardening, and automated scaling strategies.
- Implemented security practices including vulnerability scanning, dependency auditing, SSL/TLS management, and regular penetration assessments.
- Define technical architecture and conduct code reviews, ensuring code quality, consistent design patterns, and mentoring junior and mid-level engineers.

Full-Stack Engineer **SpringKnight**, United Kingdom (Remote) *March 2023 – December 2024*

- Primary developer on the Schooldesk platform since its inception in 2018 (originally at Asqii, now SpringKnight), contributing 1,500+ commits across 6 repositories and building core modules including NFC attendance, canteen POS, transport, visitor logs, diary, classroom, and store/inventory.
- Developed backend API features (Node.js) and the Schooldesk PWA, delivering full-stack capabilities that grew the platform to 3,600+ monthly active users and 15,000+ push notification subscribers.
- Shipped the Classroom module for in-class management and a real-time diary feature for school-guardian communication, expanding the platform's end-to-end offering.
- Implemented Sentry for error tracking and eliminated unnecessary re-renders, improving app stability and performance across all mobile apps, PWA, and backend.

Senior Frontend Developer **Stakester**, United Kingdom (Remote) *January 2022 – May 2022*

- Architected a real-time challenges feature for competitive user interactions using React Native and Firebase, contributing 140 commits in 4 months.
- Integrated mParticle analytics and built reusable UI components, providing data-driven insights that informed product feature prioritizations.
- Mentored 2 junior developers through code reviews and technical workshops, improving team code quality and delivery speed.

Education

BSc in Computer Engineering

Kwame Nkrumah University of Science and Technology (KNUST) *September 2015 – June 2019*

Skills

Programming Languages: JavaScript (ES2015+), TypeScript, PHP, GraphQL, SQL, Python

Libraries & Frameworks: React, Next.js, Node.js, React Native, Tailwind CSS, Redux, NestJS, Laravel, Prisma

Tools & Platforms: Git, GitHub Actions, Docker, Digital Ocean, GCP, Firebase, PostgreSQL, Paystack, Figma, Sentry, Stripe, Nginx

Leadership: Team management, code review, CI/CD, security auditing, system architecture, agile development

Interests

Code optimisation, AI/Machine learning, Cloud infrastructure
